## **ASHCROFT TO HISTORIC YALE**

### **Fraser & Thompson River Expedition**

The ancient rock walls of Black Canyon tower above as we begin our 160-kilometre adventure. The dry desert climate and the clear blue waters of the Thompson are the perfect companions on the first day of this expedition.

Challenge the rapids with our paddle rafts or lounge about on our larger power rafts and enjoy a day of whitewater and frequent sightings of osprey, eagles and Big-horn Sheep. You will encounter the power of Devil's Gorge, Cutting Board, the Cauldron, Jaws and more. Choose either paddle or power for over 40 km of fun.

As we change rivers, the blue waters of the Thompson mix with the silt-laden waters of the mighty Fraser just above the canyon. With rapids more powerful than the Colorado River we board larger motor rafts called j-rigs for the remainder of the trip. We also move from dry sage-covered hills and white limestone cliffs, to lush conifer forests and moss-covered granite banks carved by the force of this free flowing river.

We can accommodate people of all ages and physical abilities keeping in mind that all trips are not suitable for everyone. Powered rafts are controlled by the guide who steers with an outboard motor at the rear of the raft. People are required to hang on with both hands through the rapids. With the ride not quite as rough at the back of the raft as the front, this trip is suitable for a wide range of people. Minimum age 8 years accompanied by an adult.

Paddle rafting requires people to participate and listen to commands from your guide, these trips can be a little more strenuous and demanding. Our minimum age for paddle rafting is between 12 and 15 years depending on the river, water levels and previous experience. Please inquire at the time of booking for suitability.

Float trips (no whitewater) suitable for all ages 2 to 90.
